Matter: That Swedbank explains how it is possible that an employee has been able to steal 35 mSEK from customers' accounts

I demand that the following issue is included on the agenda for the Annual General Meeting 2020.

On the evening of April 16, the following could be read on SVT's TextTV page 128:

Bank swindle. A former employee at Swedbank is now charged with stealing 35 mSEK from customers' accounts. The man, who worked as an adviser, is risking up to six years imprisonment.

I will also ask the auditors how this record theft can happen without the auditors (internal and external) discovering this.

Kind regards
