LTV calculation									

The calculation of the weighted average loan-to-value (WA LTV) for Swedbank's cover pool follows the method defined by the Association of Swedish Covered Bond Issuers (ASCB). In Sweden, one property can be financed with more than one mortgage. The ASCB LTV definition accounts for the highest LTV among all issued mortgages against a specific property.

Public loans are not backed by property collateral, but rather government guarantees, and are hence not part of the LTV calculations.

The presentation of the LTV distribution accounts for the total volume of mortgages within each LTV bracket. E.g. a loan with a LTV of 50% is sliced and accounted for in equal parts, in all LTV brackets up to 50%.

For more detailed description of the ASCB LTV definition, please visit www.ascb.se.

When calculating eligible loan amounts in the cover pool, the value component of the LTV is adjusted upwards only when a price increase can be statistically verified and only limited to certain single family properties. Statistically verified property price declines are however always taken into account, on all property types, when calculating eligible loan amounts in the cover pool.

1) Type of pool: Dynamic.

2) Loans originated by Swedbank and the independent savings banks under a specific cooperation agreement.

3) Public loans are guaranteed either by a Swedish municipality or the state and have therefore no LTV assigned to them.

4) As defined by the Association of Swedish Covered Bond Issuers (www.ascb.se).

1) Distribution by refinancing period as percentage of total cover pool.

2) Percentage refers to number of loans paid out each year.

3) "No prior ranks" indicates that the loan will be repaid out of the collateral proceeds in the event of a forced sale, prior to any other claim secured by a contractual pledge over the same collateral being repaid. "Prior ranks" indicates that there are other claims secured by a contractual pledge over the same collateral which will be repaid prior to the loan. Please note that under Swedish law there are restrictions regarding expansion of prior ranks at the expense of claims with subsequent ranks.

4) Loans past due > 60 days are not eligible for the cover pool.

5) FX-rate as per trade date; Gross outstanding amount, i.e. including intra-group holdings.
